Consumer Notes:

It's a pretty safe bet that you are all aware of Gundam Wing by now. Cartoon Network, running these English dubs in two versions (a cut one and an almost totally uncut one later on) has done a great deal to help popularize the medium and the DVDs/tapes become available starting this month. Also of high significance is the start of the third Slayers series (Try, using the obvious pun) which has proven itself in the marketplace many times over. There's also more Kimba, BeBop, Dragonball Z, Trigun, BGC 2040, Sailor Moon, Pokémon ... you name it. Finally, if you enjoy adult product we suggest that you take a look at Imma Youjo ... it's quite nasty and sure to do well!

JEFF'S PICK(S) OF THE MONTH

Like it or hate it, Gundam Wing is one of the most popular things out there right now and will sell tons, along with the new Sailor Moon movie, but Slayers Try and Imma Youjo will probably give them a run for their money. Any of these should be good, depending upon your interests.
